

Natural Awakenings, Phoenix Edition **Advertiser Testimonials**

Natural Awakenings magazine has been published monthly in Phoenix for more than four years. We are honored that many leading health and wellness organizations have consistently advertised with us for years, which illustrates they receive an ongoing return by partnership with us. Here are several testimonials from local advertisers:

“I recently began an ad campaign with a 1/4 page in *Natural Awakenings* last month. While the first month brought a moderate response and two phone calls of interest, the second month (after 3 weeks) has brought in 9 phone calls and 6 new patients so far, and the month isn't over yet. I heartily recommend advertising in *Natural Awakenings*.”

“We have been advertising in NA for 5 months running and we are seeing great results with responses all over Arizona and beyond! We find this magazine is a very cost effective and valuable resource for our advertising needs.”
